

Fund a Project

Your church can have a huge impact by funding a project like the building of a new home for a family in need or the installation of a clean water well for an impoverished community. These projects are a great way to incorporate global mission work into your congregation's widespread efforts. We encourage churches to explore fundraising initiatives like this during specific seasons of the church year (though any time of year is a great time to give). Wouldn't it be amazing if your church family could fund a home for a struggling family during the season of Advent or Lent?

.....

“Each Lenten season, we start on Ash Wednesday and we collect donations through Easter Sunday. We started this partnership with Food For The Poor in 2013 and since then, we have been able to build 13 homes for beautiful Caribbean families in need of a safe and sanitary home. It is our prayer that this partnership will continue on for many years to come!”

-Kris Hanson, Faith Lutheran Church, Madison, MN
