

Transform a Community With Sustainable Change

We know that to truly spark change in areas of great need, we must uplift entire communities. Our wholistic approach offers churches the opportunity to connect with a community in the developing world to contribute to the funding of homes, clean water initiatives, education, medical care, income-generating projects, and more. In addition to meeting physical needs, we also address the spiritual needs of the communities we serve, bringing them closer to Christ over the course of our partnership. By giving of your time and treasure (oftentimes over the course of several years), your church can truly transform an entire community. And, as can only happen through the power of the Gospel, you will be transformed, too.

.....

“Since Nativity first started working with Food For The Poor in 1998, our congregation has nearly tripled in size. Our clergy have consistently credited this growth to our outreach mission. Our openness to the needs of others has brought liveliness, diversity and joy to our church community. Food For The Poor facilitates our outreach and helps us grow as a faith community.”

-Jim McDaniel, Nativity Catholic Church, Burke, VA

.....

Nativity is currently funding its 13th village in Haiti in collaboration with Food For The Poor. [Watch this brief video to learn more about the Power of Partnership.](#)
